Monthly Indicators

August 2019

As the summer draws to a close, multiple opposing factors and trends are competing to define the direction of the real estate market. After the Federal Reserve lowered its benchmark interest rate on July 31, 30-year mortgage rates continued to decline, approaching all-time lows last seen in 2016. Yet most experts agree these reductions are unlikely to bring sufficient relief, at least in the short term, for first-time home buyers. The lack of affordable inventory and the persistence of historically high housing prices continue to affect the housing market, leading to lower-than-expected existing home sales at the national level.

- Single Family Closed Sales decreased 28.6 percent to 15.
- Townhouse-Condo Closed Sales increased 22.2 percent to 55.
- Adult Communities Closed Sales remained flat at 1.
- Single Family Median Sales Price was down 1.7 percent to \$742,500.
- Townhouse-Condo Median Sales Price was down 6.5 percent to \$505,000.
- Adult Communities Median Sales Price was up 4.2 percent to \$160,000.

As many homeowners refinanced their homes to take advantage of declining interest rates, consumer confidence in housing was reported to be at historically high levels. Even so, real estate professionals will need to monitor the market for signs of continued imbalances. Although the inventory of affordable homes at this point remains largely stable, it is stable at historically low levels, which may continue to push prices higher and affect potential buyers across the U.S.
